

RHINO

BURGLARY & FIRE SAFE

Burglary and Fire Protection with enormously increased storage capability

The Rhino Burglary and Fire safe offers enormously increased storage capacity. The safe provides an affordable way to store important documents and other valuables without compromising their security.

- 12mm solid high tensile steel door 65mm overall
- Three solid chrome plated locking bolts
- Spring loaded tempered glass relocker
- Adjustable shelves
- Bolt down hole
- Stainless facia plates

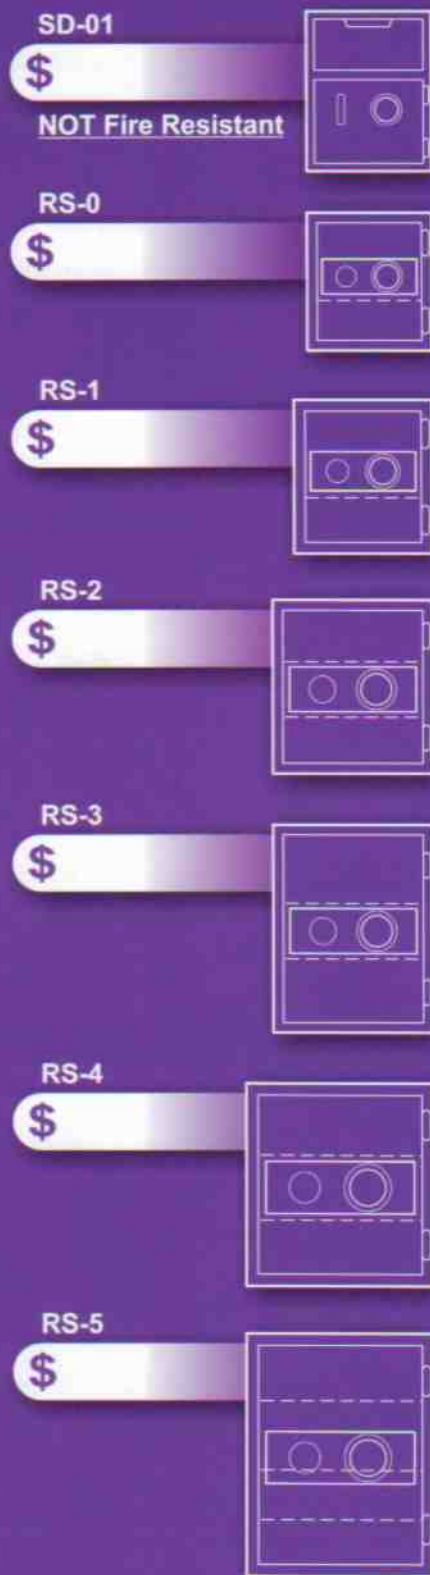

CONSTRUCTION - RS SERIES

The Rhino Burglary and Fire Safe is constructed of top quality materials as steel to BS4360-430 MPA tensile strength. 50mm of high density concrete is encased within the steel creating a formidable barrier against criminals and fire alike. Rhino Fire Safes are lab tested for 90 minutes at 1750 degrees Fahrenheit. State of the art fire retardant material is encased within high density concrete.

PROTECTION

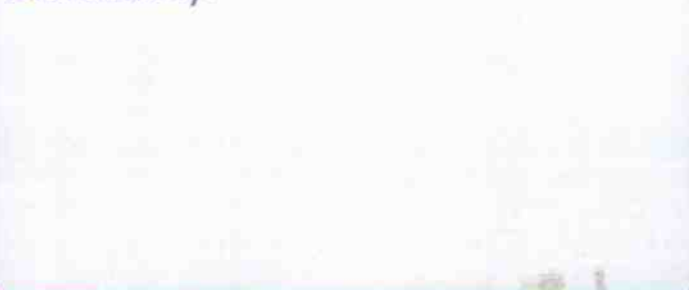

All Rhino Safes come with a standard 3-wheel, spy-proof U.L. approved group 2M combination lock. Hardened steel plates along with a strategically placed glass activated reloading device protects the vital locking area. Locking bolts are solid 20mm in diameter.

Standard Inner Fitments
